

Environmental Policy

Approved by the Board on 13 August 2022

Background

Our commitment to environmental, health, safety excellence is a foundation we affirm to all internal and external stakeholders. We will review and continually improve our practices.

We are committed to

- Select materials and design elements that increase circularity, including recycled and recyclable materials.
- Protecting resources by driving towards zero waste and emissions.
- Increase energy efficiency.
- Reducing resource consumption, waste, and pollution in our operations.
- Taking a proactive approach regarding environmental legislation that affects our business.
- Encouraging subcontractors, contractors, and recyclers of our products to adopt the same environmental principles.
- Setting targets and objectives for continuous improvement and put in place environmental safety and sustainability programs.

Purpose

We reduce and, where possible, eliminate waste at our facilities via Cleaner Production principles. All our waste is handled and disposed of via safe and environmentally responsible methods.

Flomak conducts its business in compliance with all applicable laws and policies, striving to build sustainable products, protect the safety and health of our employees, customers, and the public.

It is also the responsibility of every employee to act environmentally and comply with the applicable laws as well as our contractors.

Approved by the Flomak Board on 13 August 2022.
